One Touch Organization.

Use Your favorite PIM.

Use the included Palm® Desktop organizer software on your desktop PC or use your favorite personal information manager (PIM) application. A link for Microsoft Outlook is included. Other links are available for:

- Symantec ACT!
- Lotus Organizer
- Lotus Notes
- Starfish Sidekick
- Goldmine

Visit www.palm.com for more information.

Palm Computing® organizers and PCs, working together.

You rely on your organizer and your PC. HotSync® technology from Palm Computing ensures that both have the information you need, ready and waiting. One touch of the HotSync® button on the organizer’s cradle synchronizes everything from phone numbers and addresses to appointments and e-mail. You only have to enter data once, and you never have to worry about losing data because it’s always backed up.

Organize Everything, Anywhere.
The Connected Organizers That Put Important Information At Your Fingertips.

You want it fast. You want it simple. If you want access to your important information wherever your busy life takes you, you’ll want one of the Palm III™ series of connected organizers.

Store and instantly access thousands of addresses, appointments, memos, to do items and expenses. You can even read and respond to e-mail* no matter where you are.

Through it all, you’ll know that all the information you’ve got on your organizer is also on your desktop PC. HotSync® technology exchanges and updates the information on both devices every time you synchronize. Your data is always safe, secure and up-to-date.

Choose the award winning Palm III™ organizer or the Palm IIIx™ organizer with twice the storage and an open slot to add even more storage or peripherals.

Three Easy Ways To Enter Data.

Your organizer is flexible enough to let you enter data the way you want. See how easy it is.

Graffiti® Software Award-winning Graffiti power writing software is simple – use your stylus to input easy-to-learn characters. And it’s fast – with a little practice, you can write up to 30 words a minute, error-free.

PC Keyboard When you’re at your PC, you can input data using your keyboard. With a touch of the button on the included HotSync® cradle, it’s all placed on your organizer right where it’s supposed to be.

On-Screen Keyboard Tap with your stylus to bring up the on-screen keyboard. Then simply tap the characters you want to enter.
